### **Reasons for Allowance**

The following is an examiner's statement of reasons for allowance:

Independent claims 1, 18 and 20 are allowable over the prior art of record.

Claims 2-17 and 19 depend from claims 1, and 18 respectively, therefore, are allowed.

Independent claims 1, 18 and 20 recite the limitations of :representing formation of plurality of regions within the data set by iteratively expanding a predetermined geometric representation from each region center radically outward, each iteration of expansion of the predetermined geometric representation occurring by an integer unit of measure, the interactive expansion causing adjacent regions to form region boundaries, the region boundaries permitted to be non-parallel to the perpendicular axes. The combination of these features as cited in the claims in combination with the other limitations of the claims, are neither disclosed nor suggested by the prior art of record.

The closest references of US 6757425 to Pettigrew et al. discloses a color region transform in color space. However, he does not teach the limitations of cited above

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
